Professor Joshua Lederberg
Department of Genetics
Stanford University
Stanford, California

Dear Joshua:

I took the liberty of discussing your ideas concerning ionic propulsion with Mr. E. W. Herold of Varian Associates. He was interested in your proposal and took the time to write critical comments which I am sending on to you for your information.

I would like to have you meet several of my associates from Varian and am asking my secretary to try to arrange a convenient date for all.

Looking forward to seeing you soon,

Sincerely,

E. L. Ginzton
